Products

— CLIENTELE · SERVICES & PRODUCTS

Trusted by industry leaders **across the globe.**

— WHAT WE DO

Three pillars powering **enterprise transformation.**

Digital Platforms

Enterprise software platforms engineered for scalable, mission-critical operations.

IoT & Edge

Intelligent systems connecting sensors and devices for smart SME automation.

Data & AI

AI-powered intelligence layers delivering predictive quality and operational insight.

OUR PRODUCTS

Purpose-built platforms, **battle-tested at scale.**

**INSPECTION & AUDIT**

Digital Inspection & Audit Management platform for operational excellence.

Seyo

QUALITY INTELLIGENCE

AI-powered inspection intelligence — detect, enforce, and close the loop.

 BACSYS**IOT EDGE PLATFORM**

Edge-based IoT platform for smart buildings, factories & infrastructure.

ENGINEERING SERVICES

Full-spectrum engineering, **design to deployment.**

CLIENT PARTNERSHIPS & SOFTWARE SERVICES

Specialized, high-performance digital solutions.

Mayvel delivers specialized high-performance digital solutions and maintenance for industry-leading organizations across the globe.

Auchan

RETAIL SUPERMARKET ECOSYSTEM

End-to-end stock validation systems and real-time pricing synchronization across the entire global enterprise store network.

Longo Prazo

BANKING & FINANCIAL SERVICES

Design and maintenance of secure banking infrastructure and digital service architectures for large-scale financial institutions.

MHS

HEALTH INSURANCE INFRASTRUCTURE

Complex software ecosystems for managing health insurance claims, policy lifecycle, and specialized medical data workflows.

BiltData

DATA ANALYTICS & INTELLIGENCE

Advanced data analytics providing deep operational insights, predictive modeling, and scalable data processing frameworks.

The Enterprise Digital Inspection & Compliance Powerhouse.

— ABOUT PRO-INSPECTOR

Operational excellence, digitized end-to-end.

Enterprise-grade inspection & audit management — quality, compliance and accountability across every location.

— CAPABILITIES

Everything inspection teams need, **in one platform.**

Inspection Management

Create digital checklists with dynamic workflows.

Audit Tracking

Plan, schedule, and execute with automated reporting.

NC Management

Track non-conformities and CAPA workflows.

Workflow Automation

Automate escalations and task assignments.

Multi-Location

Centralized control across all facilities.

Mobility

Native apps for Android, iOS, and Tablets.

— SMART FEATURES

Field-ready intelligence, built for the real world.

Media Capture

Photos, videos, and GPS-tagged evidence.

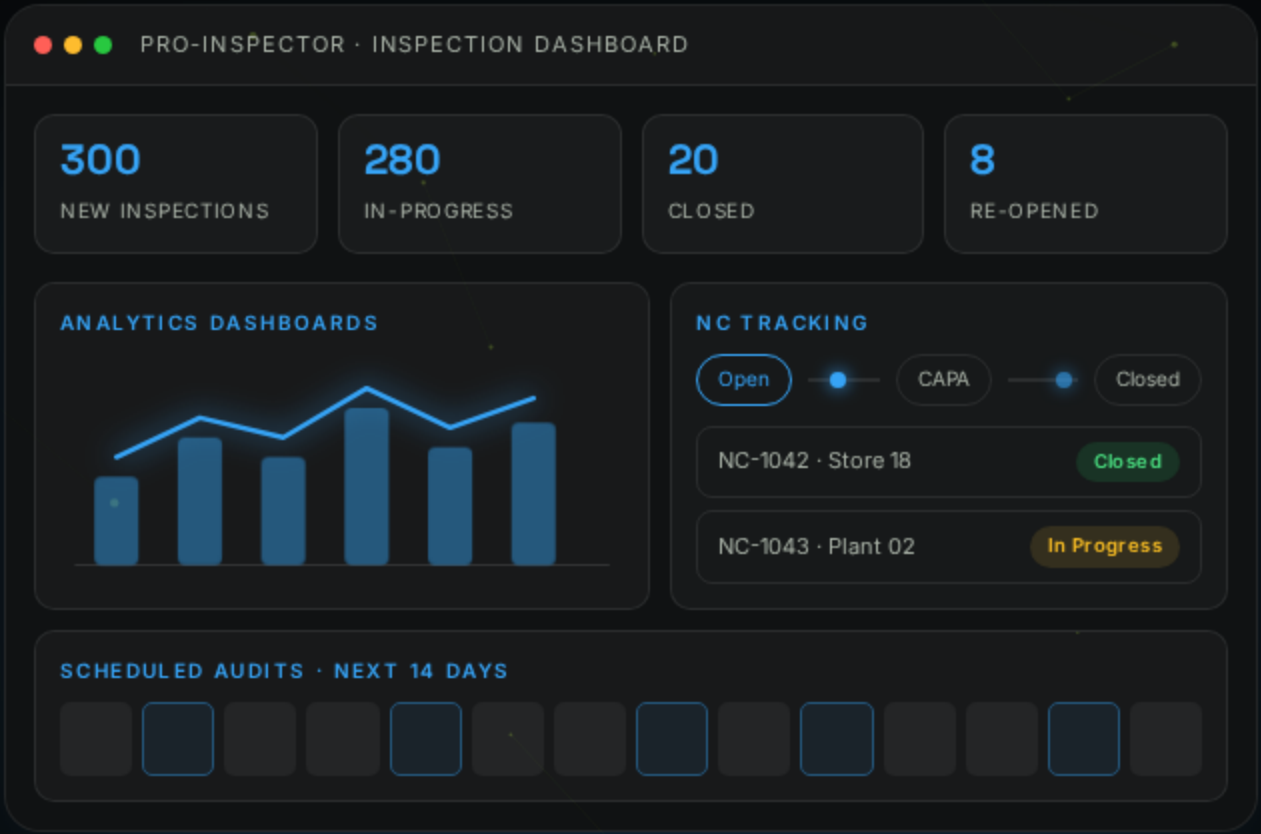

Verification

Digital signatures and timestamp logs.

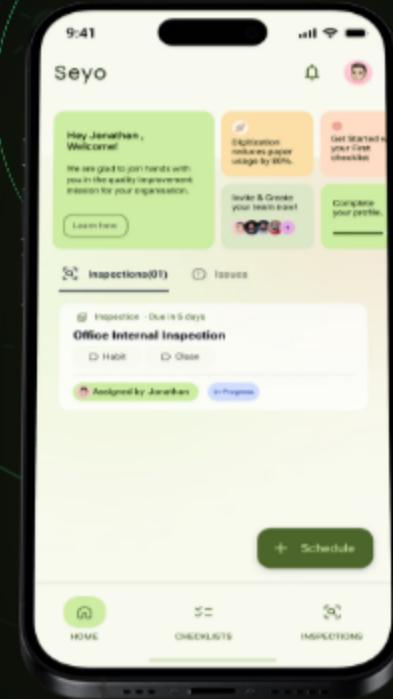

Offline Sync

Capture data anywhere, sync when online.

Seyo

AI-Driven Quality, Safety & Inspection Management

Every process should protect your **money**, your **time**, and your **reputation**.

"Quality is not a privilege — it is a right. Every business should access it effortlessly."
